

Instructions

Make a copy of this presentation, and share it (with editing privileges) with your group.

Then, working simultaneously, add labeled arrows in the mind-map on the next slide. Discuss your arrows!

Instructions (continued)

1. The original arrangement includes some hints, but feel free to move the bubbles around, or add new bubbles.
2. If you want to change the colors of bubbles or arrows, go for it!
3. A labeled arrow is just an arrow + a textbox.
4. The easiest way to add arrows is to copy/paste existing arrows.
